PROGRAM DESCRIPTIONS

All About Maps: Join us for a presentation on the history of maps and to see some of the map resources available at your library.

Android Smartphone & Tablet Basics: A reference librarian will present information to help you use your Android smartphone or Android tablet.

Ask a Reference Librarian: A reference librarian will be available to assist patrons and answer questions.

Computer Basics: Do you need to learn how to use a computer? Are you unsure of computer terminology? This class is designed for the computer novice and those who want to refresh their basic computer skills. Come join us as we explore the various functions and uses of the computer.

Creating Bookmarks in Canva: Join us as we create Bookmarks in Canva! We will discuss the basics of the website, practice utilizing templates, colors, fonts, uploading photos, and downloading our finished product.

Creating Carousel Instagram Posts in Canva: Have you taken great photos? Want to post them in a seamless way? Join us for a class in which we design seamless Carousel Instagram Posts on Canva!

Creating Holiday Cards in Canva: Join us as we craft a holiday card on Canva! We will discuss the basics of the website, practice utilizing templates, colors, fonts, uploading photos, and downloading our finished product.

Fact or Fake: How to Tell the Difference: Learn how to spot misinformation, check sources, and find reliable information in this brief introduction to media literacy.

Getting Started with Genealogy: The Basics: Join us for an introduction to researching your family's genealogy. This program is designed for beginners. We will discuss how to get started in your research, different types of genealogical records and where to find them.

How to Use ChatGPT: Are you interested in learning how to use ChatGPT? Join us for a class on the Large Language Model Artificial Intelligence software. We will work on developing a complete prompt to get the results you need and common uses for the software.

Internet Basics: Learn how the Internet works, how to connect to the Internet, and how to use a web browser and search the Internet safely.

Introduction to Sanborn Maps: The Sanborn Fire Protection Maps are often used in historical and genealogical research. While the maps were originally intended for fire insurance purposes as well as waterway system maps of the areas today they often function as a snapshot to a place and time of their making.

Learn to Use GIS Software (Session 4 of 4): GIS stands for Geographic Information Systems, which is a system for creating, editing, analyzing, storing, and mapping geospatial data. Sound interesting? Want to know more? The STPG GIS District and the St. Tammany Parish Library invite you to register for a 4-part workshop series

Poster Size Family Tree Event: Work directly with our Genealogy Librarian to build your family tree using FamilySearch's genealogy database. Once complete, you can print your tree as a custom poster on the Makerspace large-format printer (poster printing fee applies) or leave with a saved PDF copy.

Tech Time: Come to the library for one-on-one help with your technology questions.

Gale Presents: Peterson's Test & Career Prep

Search thousands of college and graduate schools, identify scholarships, take practice tests, create resumes, and explore careers.
